

Construction Air Tools – Backfill Tamper

BACKFILL TAMPER – VK 003

VK 003 Backfill Tamper which is technically equivalent to CP 0003 Tamper is ideal for cleaning and roughing concrete and construction joints. It is made with high quality components to make it best rammer in its class. This 12 kg tamper provides efficient compacting in all types of moulds. Due to its easy handling, low maintenance and compact design this sand rammer appeal to all compacting & foundry works. The pogo stick or powder puff are other common names for the tampers.

Application

- Compact soil around foundations and other structures
- Compacting backfill in trenches
- Road and concrete compact

Technical Data

Model – VK 003 Backfill Tamper		
Specifications	Metric	Imperial
Weight	12 kg	26.4 lb
Length	1320 mm	51.9"
Blows per minute	800	800
Piston stroke	152 mm	5.98"
Bore	36.51 mm	1.43"
Air Consumption	8.4 l/s	18 Cfm
Air inlet (BSP thread)	Rc 3/8	½"NPTF
Handle	Straight	Straight
<i>Optional - Needs to be purchased separately</i>		
Aluminium But dia	127 mm	5"
Iron But dia	152 mm	5.9"

Features

- Heat-treated cylinder and chrome plated piston
- Butt held with clamp screw for quick, easy replacement
- Unique Valve design allows dirt to pass without stopping the tool.
