

# Construction Air Tools – Scabblers

## SCABBLER – VK 06

The **VK 06 Scabblers** technically equivalent to CP 0006 pneumatic scabblers are machines designed for scaling, roughening, or removal of concrete. They can also be used for removal of rust on steel surfaces. The machine can be used both horizontally and vertically. It is also known as pneumatic scabblers.

### Application

- Concrete cleaning and roughening
- Keying the surface of construction joints
- Produce ornamental or contrasting finishes on concrete surfaces

### Technical Data

	Model – VK 06	
<b>Weight</b>	4.5 kg	10 lb
<b>Length</b>	481 mm	18.5"
<b>Blows per Minute</b>	3200	3200
<b>Air Consumption</b>	0.27	28 cfm
<b>Air Inlet (BSP thread)</b>	10	1/2" NPTF
<b>Piston Type</b>	Three 4-point carbide tipped pistons	

### Features

- Easy to use due to simple design
- Ideal of Removing thick scale heavy corrosion
- Tungsten carbide-tipped pistons last longer and are easily replaced
