

# Construction Air Tools – Rivet Buster

## RIVET BUSTER – VK 4608D ( 31 LB )

The **VK 4608D Rivet Buster** technically equivalent to CP 4608D also known as the Hell Dog or Boyer Buster is a robust and potent hammer, delivering exceptional performance. It offers precise control over both blow frequency and energy output. It comes with an open swan neck handle for better performance in tight spaces. Ideal for medium to heavy concrete demolition, as well as cutting large rivets, bolts, and various ripping operations. Featuring a “D” handle-inside trigger, it is well-suited for horizontal tasks and some vertical applications.

### Features

- Teasing Throttle for smooth performance and operator control
- Operation under tough conditions
- Stepped cylinder design to prevent accidental piston ejection
- “D” handle with inside trigger
- Robust components for enduring tough work environments

### Application

- Bridge deck work with weight restrictions
- Medium to heavy concrete demolition
- Cutting metal tanks or plates
- Industrial applications in foundries or the petrochemical industry

### Technical Data

Model – VK 4608D Rivet Buster		
Specifications	Metric	Imperial
Weight	14.2 kg	31 lb
Length	600 mm	23.6"
Blows per minute	900	900
Piston Stroke	203 mm	8"
Air Consumption	21 l/s	45 cfm
Air Pressure	6.2 bar	90 psi
Piston Dia	30.2 mm	1.19"
Air Inlet (NPTF thread)	12.7 mm	1/2"
Handle Type	D	D
Shank Size	Jumbo	Jumbo
